SCHEDULE 39

Regulation 565 of the Revised Regulations of Ontario, 1990
under the *Health Protection and Promotion Act*

Item	Offence	Section	Set Fine
1.	Fail to notify in writing of construction building permit number at least 14 days before opening public pool	clause 5 (1) (a)	\$55
2.	Fail to notify in writing of alteration building permit number at least 14 days before opening public pool	clause 5 (1) (a)	\$55
3.	Fail to notify in writing of construction building permit number at least 14 days before opening public spa	clause 5 (1) (a)	\$55
4.	Fail to notify in writing of alteration building permit number at least 14 days before opening public spa	clause 5 (1) (a)	\$55
5.	Fail to notify in writing of construction building permit number at least 14 days before opening Class C facility	clause 5 (1) (a)	\$55
6.	Fail to notify in writing of alteration building permit number at least 14 days before opening Class C facility	clause 5 (1) (a)	\$55
7.	Fail to notify whether all preparations necessary to operate public pool completed as required	clause 5 (1) (b)	\$55
8.	Fail to notify whether all preparations necessary to operate public spa completed as required	clause 5 (1) (b)	\$55
9.	Fail to notify whether all preparations necessary to operate Class C facility completed as required	clause 5 (1) (b)	\$55
10.	Fail to notify of intended opening date of public pool for use	clause 5 (1) (c)	\$55
11.	Fail to notify of intended re-opening date of public pool for use	clause 5 (1) (c)	\$55
12.	Fail to notify of intended opening date of public spa for use	clause 5 (1) (c)	\$55
13.	Fail to notify of intended re-opening date of public spa for use	clause 5 (1) (c)	\$55
14.	Fail to notify of intended opening date of Class C facility for use	clause 5 (1) (c)	\$55

15.	Fail to notify of intended re-opening date of Class C facility for use	clause 5 (1) (c)	\$55
16.	Fail to notify whether pool intended to be operated as Class A pool	clause 5 (1) (d)	\$55
17.	Fail to notify whether pool intended to be operated as Class B pool	clause 5 (1) (d)	\$55
18.	Fail to notify of name of operator of public pool	clause 5 (1) (e)	\$55
19.	Fail to notify of name of operator of public spa	clause 5 (1) (e)	\$55
20.	Fail to notify of name of operator of Class C facility	clause 5 (1) (e)	\$55
21.	Fail to notify of address of operator of public pool	clause 5 (1) (e)	\$55
22.	Fail to notify of address of operator of public spa	clause 5 (1) (e)	\$55
23.	Fail to notify of address of operator of Class C facility	clause 5 (1) (e)	\$55

165.	Fail to ensure water at Class C facility maintained free from visible matter that may be hazardous to bather safety	subsection 7 (3)	\$305
166.	Fail to ensure public pool water clear enough to permit black disc at deepest point to be clearly visible from point on deck nine m away	subsection 7 (4)	\$465
167.	Fail to ensure public pool water clear enough to permit lifeguard to continuously see black marking on bottom of the pool	subsection 7 (5)	\$465
168.	Fail to ensure wave action pool water clear enough to permit black disc at deepest point to be clearly visible from point on deck nine m away	subsection 7 (6)	\$465
169.	Fail to ensure public spa water clear enough to permit visibility of lowest water outlet drain when water in non-turbulent state	subsection 7 (7)	\$465
170.	Fail to ensure public pool water treated with chlorine, a chlorine compound or bromine by means of chemical feeder	subsection 7 (8)	\$465
171.	Fail to ensure public spa water treated with chlorine, a chlorine compound or bromine by means of chemical feeder	subsection 7 (8)	\$465
172.	Fail to ensure public wading pool water treated with chlorine, a chlorine compound or bromine by means of chemical feeder	subsection 7 (8)	\$465
173.	Fail to ensure alkalinity of public pool water maintained in range of 80 - 120 ppm	clause 7 (8) (a)	\$55
174.	Fail to ensure alkalinity of public spa water maintained in range of 80 - 120 ppm	clause 7 (8) (a)	\$55
175.	Fail to ensure alkalinity of public wading pool water maintained in range of 80 - 120 ppm	clause 7 (8) (a)	\$55
176.	Fail to ensure pH value of public pool water maintained in range of 7.2 - 7.8	clause 7 (8) (b)	\$55
177.	Fail to ensure pH value of public spa water maintained in range of 7.2 - 7.8	clause 7 (8) (b)	\$55
178.	Fail to ensure pH value of public wading pool water maintained in range of 7.2 - 7.8	clause 7 (8) (b)	\$55
179.	Fail to ensure residual of free available chlorine of public pool water maintained between 0.5 - 10 ppm	clause 7 (8) (c)	\$305

180.	Fail to ensure residual of free available chlorine of public spa water maintained between 5 -10 ppm	clause 7 (8) (c)	\$305
181.	Fail to ensure residual of free available chlorine of public wading pool water maintained between 5 - 10 ppm	clause 7 (8) (c)	\$305
182.	Fail to ensure total bromine of public spa water maintained between 5 - 10 ppm	clause 7 (8) (c)	\$305
183.	Fail to ensure total bromine of public wading pool water maintained between 5 - 10 ppm	clause 7 (8) (c)	\$305
184.	Fail to ensure bromine residual of public pool water maintained between 2 - 4 ppm	clause 7 (8) (d)	\$305
185.	Fail to ensure bromine residual of wave action pool water maintained between 3 - 10 ppm	clause 7 (8) (e)	\$305
186.	Fail to ensure Oxidation Reduction Potential value of public pool water maintained between 600 - 900 mV where pool equipped with automatic sensing device	clause 7 (8) (f)	\$120
187.	Fail to ensure Oxidation Reduction Potential value of public spa water maintained between 600 - 900 mV where spa equipped with automatic sensing device	clause 7 (8) (f)	\$120
188.	Fail to ensure Oxidation Reduction Potential value of public wading pool water maintained between 600 - 900 mV where wading pool equipped with automatic sensing device	clause 7 (8) (f)	\$120
189.	Fail to ensure public pool water maintained so that bromine residual levels satisfy M.O.H. requirement	clause 7 (8) (g)	\$120
190.	Fail to ensure public spa water maintained so that bromine residual levels satisfy M.O.H. requirement	clause 7 (8) (g)	\$120
191.	Fail to ensure public wading pool water maintained so that bromine residual levels satisfy M.O.H. requirement	clause 7 (8) (g)	\$120
192.	Method used to determine free available chlorine residual may be affected by chloramines	subsection 7 (9)	\$55
193.	Method used to determine free available chlorine residual may be affected by other compounds	subsection 7 (9)	\$55
194.	Fail to ensure appropriate free available chlorine and cyanuric acid concentration	paragraph 1 of subsection 7 (10)	\$120
195.	Fail to ensure no cyanurate stabilization used for indoor pools	paragraph 2 of subsection 7 (10)	\$55

196.	Fail to ensure no cyanurate stabilization used for spas	paragraph 2 of subsection 7 (10)	\$55
197.	Fail to manually test total alkalinity at least 30 minutes before opening public pool	paragraph 1 of subsection 7 (11)	\$55
198.	Fail to record total alkalinity at least 30 minutes before opening public pool	paragraph 1 of subsection 7 (11)	\$55
199.	Fail to manually test total alkalinity at least 30 minutes before opening public spa	paragraph 1 of subsection 7 (11)	\$55
200.	Fail to record total alkalinity at least 30 minutes before opening public spa	paragraph 1 of subsection 7 (11)	\$55
201.	Fail to manually test total alkalinity at least 30 minutes before opening public wading pool	paragraph 1 of subsection 7 (11)	\$55
202.	Fail to record total alkalinity at least 30 minutes before opening public wading pool	paragraph 1 of subsection 7 (11)	\$55
203.	Fail to manually test pH value at least 30 minutes before opening public pool	paragraph 2 of subsection 7 (11)	\$55
204.	Fail to record pH value at least 30 minutes before opening public pool	paragraph 2 of subsection 7 (11)	\$55
205.	Fail to manually test pH value at least 30 minutes before opening public spa	paragraph 2 of subsection 7 (11)	\$55
